THE

NEWS AND OBSERVER

INDEX

April, 1967 - 1969

J. Y. JOYNER LIBRARY
EAST CAROLINA UNIVERSITY
GREENVILLE, N. C.

1974

The Reference Staff of J. Y. Joyner Library began this index to the Raleigh News and Observer as a research aid for the East Carolina University community. Coverage is generally limited to North Carolina news, but national subjects are included when they relate to the state. Stories are generally entered by subject rather than place. TO INSURE LOCATING ALL STORIES ON A SUBJECT, THE USER SHOULD CHECK EVERY POSSIBLE SUBJECT HEADING.

Initially the Index was highly selective with emphasis on biography, education, politics and government, and controversial issues. Coverage has become progressively comprehensive so that currently most subjects except social news and athletics are covered.

In 1973, the Index was revised using, where applicable, the subject headings in The New York Times Thesaurus. Until this revision, biographical material was entered under the heading BIOGRAPHY or an individual's name; now all biographical entries are under PEOPLE.

Until 1971, the edition of the News and Observer on microfilm was often a later edition than the one available for indexing. For the years 1967-1970, if a story does not appear on the page given in the Index, the user is advised to scan the entire issue and the following issue or issues. Occasionally a story is dropped and does not appear in the microfilmed edition.
